Toxicology is the study of poisons and their effects on living organisms. It is a vital component of forensic medicine as it helps in the analysis of toxic substances found in blood, urine, or other body tissues. Forensic toxicologists also assist in determining the cause of death in cases of poisoning.

The National Eligibility cum Entrance Test for Postgraduate (NEET PG) is a national-level entrance exam conducted for admission to MD/MS/Diploma

courses in medical colleges in India. Cracking the NEET PG exam requires thorough preparation and a strong understanding of all subjects, including forensic medicine and toxicology.
