What's Inside?

The book is divided into 10 sections, each of which covers a different clinicopathologic pattern. Each section includes a discussion of the clinical presentation, differential diagnosis, and pathologic findings of the pattern. The book also includes a number of case studies that illustrate the application of the clinicopathologic approach to differential diagnosis.

The sections of the book include:

-
- Neoplasia
- Inflammation
- Infection
- Degenerative and Metabolic Diseases
- Congenital Anomalies
- Toxic and Environmental Injuries
- Forensic Pathology
- Case Studies
- Index
